GENERAL RELEASE OF INFORMATION

I hereby authorize any hospital, physician or other person who has examined or attended me, _____ to furnish Prescott Chiropractic Clinic or a representative thereof, any and all information with respect to any illness, medical history, consultation, prescriptions or treatment, and copies of all hospital and medical records. I hereby authorize Prescott Chiropractic Clinic to release to authorized person any and all records pertaining to my treatment in the said clinic. A photocopy of this authorization shall be considered as effective and valid as the original. It shall remain effective until I revoke it with written authorization for revocation.

ASSIGNMENT OF BENEFITS

I hereby assign all medical and/or surgical benefits; to include major medical benefits too that I am entitled, including Medicare, private insurance or any health plan, to Prescott Chiropractic Clinic. A photocopy of this authorization shall be considered as effective and valid as the original. It shall remain effective until I revoke it with written authorization for revocation. I understand that I am financially responsible for all charges incurred, whether or not paid by the said insurance. I hereby authorize the said assignee to release all information necessary to secure payment.

TERMS OF ACCEPTANCE

When an individual seeks chiropractic healthcare and we accept this individual for such care, it is essential for both to be working towards the same objective.

Chiropractic has only one goal. The goal is to eliminate subluxation within the spinal column, which interfere with the expression of the body's innate wisdom. It is important that you understand both the objective and the method that will be used to attain our goal. This will prevent any confusion or disappointment.

Adjustment: An adjustment is the specific application of forces to facilitate the body's correction of vertebral subluxation. Our chiropractic method of correction is gentle, specific adjustments of the spine.

Health: A state of optimal physical, mental, and social well being, not merely the absence of disease of infirmity.

Vertebral Subluxation: A misalignment of one or more of the 24 vertebrae in the spinal column which cause alteration of nerve function and interference to the transmission of mental impulses, resulting in a lessening of the body's innate ability to express its maximum health potential.

We do not offer to diagnose or treat any disease or condition other than vertebral subluxation. However, if during the course of chiropractic spinal examination we encounter non-chiropractic or unusual findings, we will advise you. If you desire advice, diagnosis, treatment for those findings, we will recommend that you seek the services of health care providers who specialize in that area.

Regardless of what the disease is called, we do not offer to treat it. Nor do we offer advice regarding treatment prescribed by others of the body's innate wisdom. Our method is specific adjusting to correct vertebral subluxations.

I, _____, have read and fully understand the above statements.
